STATINTL

Dear

STATINTL

I have received your letter of 4 August, and I find your suggestion to be an interesting one but outside of my field of responsibility. I have, therefore, passed your letter to the Agency component which would most logically consider your proposed activity. Should they wish to explore the matter further, I am sure their representative will contact you.

Although your proposal does not involve my Agency component, I wish to thank you for your interest in our work and your offer to help.

Sincerely,

STATINTL

Albert D. Wheelon
